

For large and divided crawl-spaces and basements.

Wood's DSC-70E is a dehumidifier with very high capacity, suited especially for crawl spaces, large basements, and drying rooms. By connecting a pipe to the dehumidifier you can easily lead the dry air to another room, perfect for large basements or divided crawl spaces. The DSC-70ES has high capacity, even at lower temperatures.

Wood's DSC-70ES

The DSC-70ES is an incredibly powerful dehumidifier, built to handle large and demanding environments. It is especially suitable for colder areas, thanks to the high capacity down to 1°C. Wood's DSC-70ES is easy to use and will quickly lower the humidity, wherever you use it. This powerful and energy efficient dehumidifier is the best choice for large areas like crawl spaces.

Wood's DSC-70E is equipped with a pump for automatic water drainage, perfect for when there is a distance between the dehumidifier and the drain. You can also attach a air pipe to the dehumidifier and lead the dry air to another room or area, perfect for large basements or crawl spaces with several rooms.

Advantages:

- For crawl spaces, basements, attics, cellars etc.
- Removes excess moisture and bad odour
- IP-rated for tough environments
- Automatic water pump drains the water
- Air pipe for divided areas
- Runs only when needed
- Energy efficient and powerful
- Automatic defrost

Technical data

Max. working area	280 m ²
Recommended area	10 - 180 m ²
Air flow	450 m ³ /h
Capacity at 10°C & 60% RH	10 litres/day
Capacity at 20°C & 70% RH	33 litres/day
Capacity at 35°C & 80% RH	72 litres/day
Power at 10°C & 60% RH	390 W
Power at 20°C & 70% RH	630 W
Power at 35°C & 80% RH	830 W
Working interval temperature	+1 to +35°C
Tank volume	Hose only
Fan speeds	1
Dimensions (mm)	620x410x450
Weight	33,5 kg
Sound level	58 dB
Cooling media, freon free	R410A (430 g)
IP rating	IP21 (X1)
